

# CLONERALLIANCE FLINT 4KP

## Overview

ClonerAlliance Flint 4KP is a super portable UVC HDMI to USB 3.0 video capture device. It supports 4K@30fps passthrough. No driver is needed, just plug and play. With universal and high performance USB Type-C port and Ultra Low Latency technology, you can easily record and broadcast 1080p@60fps HDMI videos from movie players, set-up boxes, webcams, DSLRs, camcorders and game consoles to Mac, Windows, Linux or Android. ClonerAlliance Flint 4KP is compatible with popular 3rd party livestreaming software such as OBS, XSplit, VLC, etc. Together with live streaming software and ClonerAlliance App, you can stream and capture your gameplay/videos at 1080p@60fps to Youtube, Twitch, and Facebook instantly. It includes USB Type-C, HDMI, Microphone, Line in and Line out port.
